

Quality Features

- Models available with factory-installed connectors or pre-punched cut-outs.
- Attractive solid brass cover and lid.
- Internal height adjustment screws for precise positioning.
- Optional brass carpet trim ring provides a finished appearance.

Description

The Lowell MO Series floor boxes are easy to install, heavy-duty microphone receptacle/floor box assemblies with a solid brass cover and lid. Standard 4" x 4" octagon box is provided with leveling and height adjustment screws to allow precise positioning and placement. Units are available with a variety of pre-punched cutouts for industry standard microphone connectors or with standard connectors factory installed (see illustrations below). Optional carpet trim ring Model CTR is a matching solid brass ring designed to finish the installation when the floor box is used in a carpeted area (order separately).
