

Quality Features

- Fixed position writing surface on a 2 RU panel provides a surface area of 17.375"W x 15"D.
- Ships fully assembled for labor saving installation.
- Attaches easily to the front rails on 19"W EIA racks.
- Woodgrain laminate provides a smooth and attractive surface.
- Sturdy 16 gauge US steel frame supports 30lbs.
- Requires panel mounting hardware (see page 2).

L16-3

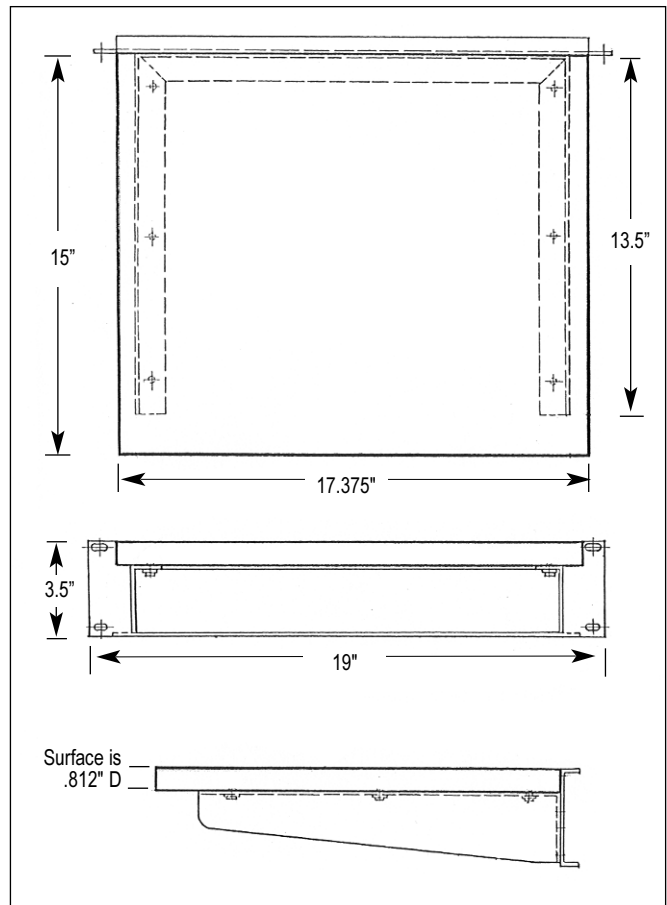

Description

Lowell writing surface Model L16-3 provides a fixed position shelf for writing applications or for supporting items such as small keyboards and controls that do not exceed 30 pounds. Sturdy accessory ships fully assembled for fast and trouble-free jobsite installation.

Stationary writing surface utilizes 2RU of panel mounting space in a 19"W EIA rack and extends out 15". It attaches to the front rails using four 10-32 panel mounting screws (order separately, see page 2). Construction of the writing surface frame assembly is 16 gauge US steel finished in smooth black powder epoxy. The writing surface top is an attractive woodgrain laminate over particle board. It measures 5/16" thick and is secured to the frame with screws.

A & E Specifications

The writing surface for fixed use in 19"W EIA racks shall be Lowell Model L16-3. The writing surface shall have a rack panel space height of 3.5" (2RU). It shall measure 19"W with a writing surface area of 17.375"W x 15"D. It shall be capable of supporting 30 lbs. The writing shelf frame shall be constructed of 16 gauge US steel and finished in a black powder epoxy. The top shall be woodgrain laminate covered particle board and shall be screw mounted to the frame. The writing surface shall ship factory assembled and mount to EIA rails using 10-32 panel mounting hardware (order separately).
