

**RACKS & ACCESSORIES:**

**LGR-series:** gangable rack with 42" depth (40U or 44U). Optional doors, side panels, mobile base.

**LPTR-series:** additional heights are available for the pull & turn rack including 24U, 28U and 30U. 19" or 23"D.

**LXR-series:** economical floor rack with slim (19.2"W) footprint easily fits inside a closet or narrow space. Features are similar to the Vari-Rack® except this model has a static (set) depth. Extensive selection of options. 8-44U. 21" or 26"D.

**LXR-IAV:** the LXR is also available pre-assembled with an AV bundle, which includes vented steel panels, vented steel utility shelves, cable management bar, 15A power strip and fine-floor swivel-casters. Quantity of accessories varies with rack height.

**LPOR-series:** economical pull-out rack provides convenient access to electronics stored in cabinets or credenzas. Features are similar to the LPTR-series except the LPOR pulls straight out and does not turn on a turntable. Unassembled. 10-21U. 19"D.

**LWSRF-series:** wall-mount rack with swing-open access is an economical design featuring fixed mounting rails. 7-16U. 22"D.

**LDRF-series:** desktop rack with fixed rails (replaces LDR-series). 7-16U. 18"D.

**LWBR-series:** wall-mount rack with base is enriched with a single release mechanism, forward lock for easier access to severe loads, and open top to accommodate optional fan panels. 24-44U. 22-32"D.

**Rackmount Light Panels:** 19" EIA light panels with hooded or gooseneck lights and optional 120VAC 15A power.

- HDLT-R: hooded light rackmount panel with night-vision friendly LEDs (red lights turn to white as intensity increases). Includes XLR termination on rear for optional gooseneck light.
- ACR-1507-HDLT: same as above but includes 120VAC 15A power (9-ft. cord, 7 outlets).
- GNLT-R: gooseneck light panel with two XLR terminations on front and one on rear. Panel includes two gooseneck lights.
- ACR-1507-GNLT: same as above but includes 120VAC 15A power (9-ft. cord, 7 outlets).
- GNLT-18: single gooseneck light.

**Rack Media Holder:** (no. MH5-DVD) 5U rack storage unit for DVDs.

**Drawer Liners:** protect equipment stored in metal drawers.

- CDM: cabinet drawer mat.
- DFI-series: customizable foam insert.

**Swivel-casters for Fine Floors:** designed to prevent scuffs and mars when rolling loaded racks across wood, marble or tile floors.

- LVR-MB21F: 21"D mobile base with fine-floor swivel casters for Vari-Rack® (LVR-series).
- LVR-MB26F: 26"D mobile base with fine-floor swivel casters for LVR-series.
- LVR-C3SF: fine-floor swivel casters for LVR-series.

- LVR-C3SFL: fine-floor swivel casters (two locking) for LVR-series.
- LMB-27F: 27"D mobile base with fine-floor swivel casters for LER, LERF and LGR-series racks.
- LMB-32F: 32"D mobile base with fine-floor swivel casters for LER, LERF and LGR-series racks.
- LMB-36F: 36"D mobile base with fine-floor swivel casters for LER, LERF and LGR-series racks.
- LMB-42F: 42"D mobile base with fine-floor swivel casters for LER, LERF and LGR-series racks.
- LMSB-22FL: 22"D shallow mobile base with fine-floor swivel casters (two locking) for LER, LERF and LGR-series racks.

**Thermal Management for Europe:** 240VAC 50/60Hz fan panels.

- FW2-3-E: 19" 3U panel, 2 whisper-quiet fans
- FW4-7-E: 19" 7U panel, 4 whisper-quiet fans
- FT1-7-E: 19" 7U panel, 1 turbo fan
- FW2-RD-E: rear door panel, 2 whisper-quiet fans
- FW1-KIT-E: single fan kit
- FTC-1-E: thermostat

**POWER:**

**30A surge protective devices:** ETL Listed and UL1449 3rd edition compliant.

- ACSP-30-(1C, 2C or 3C): modular unit with up to 3 circuits for use at loadcenter, panel board or service entrance.
- COMPAC™: hardwired unit with cover plate allows 30A outlet to be converted to hardwired *output* if needed. Available with standard (ACSP-3001-HW) or insulated ground (ACSP-3001-IG-HW) outlet.

**20A surge protective devices:** the COMPAC line of 20A SPDs now includes hardwired models with optional insulated ground outlets, over/under protection, remote power control, or ground transient filter.

**True-Signal Power Cords:** IEC-series power cords with tightly twisted conductors to reduce AC magnetic field. Available with various styles of plug (lengths to 36").

**Satellite/Cable Power Cords:** IEC\_\_SAT-series power cords streamline installations by eliminating excess loops.

**MSM2:** momentary switch module with greater switching capacity.

**Power Strips with RPCs for Europe:** 240VAC 50/60Hz power strips with remote power control.

- ACSE-RPC-1602-S: 16A, 2 Schuko-type outlets
- ACSE-RPC-1606-S: 16A, 6 Schuko-type outlets

**AUDIO:**

**Shallow 8"/50W Coaxial Speaker:** the 8A50-series speaker now has shallow-depth models for shallow spaces.

**Unihorn® for Intercom Systems:** new paging horn (LUH-15Ti) for use with intercom (call-in) systems such as those used in educational facilities.
