

# AC Power Strips, Single Circuit – 15A Corded

## Description:

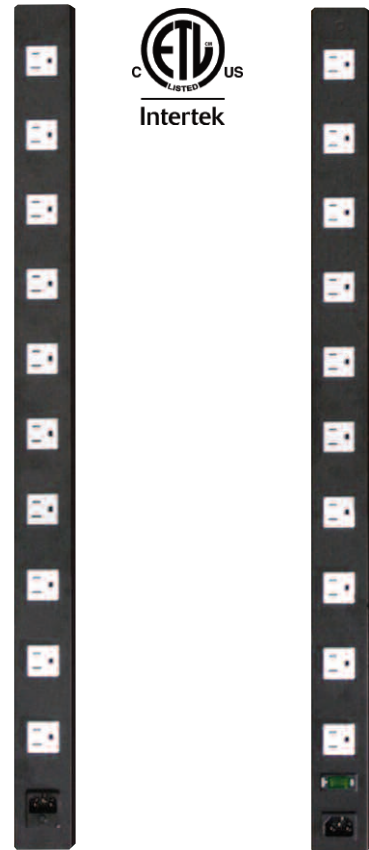

Model ACS-1510-WW power strip is a 15A relocatable device with detachable power cord that provides convenient access to power in racks and stand-alone applications. US-made power strip has a rugged steel chassis, ten easy-to-see single white outlets on wide spacing to accommodate power supplies (wall warts), and features Lowell's exclusive multi-mount brackets for versatile and trouble-free installation. Strip is ETL Listed and includes a 15A circuit breaker. Model ACS-1510-WW-SW is the same with the addition of an on/off switch.

Both models include Lowell's exclusive multi-mount brackets. Brackets are engineered with multiple mounting points and two types of hardware to facilitate easy power strip installation into cabinets with adjustable or fixed mounting rails or to wall or desk surfaces. The brackets may be mounted so they are exposed for easy access or concealed under the strip for aesthetically clean installation.

The power strip chassis is manufactured of heavy gauge steel and finished in durable black powder epoxy paint. Outlets are NEMA 5-15R white receptacles. Easy termination is provided by a detachable IEC cord that is 6 ft. long with a NEMA 5-15P plug.

## Features:

- 15A Power strip with ten single outlets, circuit breaker protection and optional on/off switch.
- Single outlets are white for easy identification inside dark cabinets and feature wide spacing to accommodate large power supplies (wall warts).
- Easy to terminate strip includes a 6 ft. IEC detachable cord with NEMA 5-15P plug.
- Rugged steel chassis is finished in durable black epoxy paint.
- Multi-mount brackets provide mounting versatility nearly anywhere including racks, walls and surfaces of most kinds.
- Complimentary cable ties are included to secure large power supplies.
- ETL Listed (US and Canada)
- Made in the USA
