“Lowell True-Signal” IEC Power Cords

Description:

Lowell True-Signal™ power cords streamline rack installations by eliminating excess dangles and loops at the back of racks while minimizing signal disruptions from AC magnetic fields. Cords are 14-gauge and terminate with IEC 60320-1/C13 on one end, NEMA 5-15P plug on the other end. The tightly-twisted conductors are designed to minimize signal disruptions from AC magnetic fields. Assortment of lengths and plug styles (straight, low-profile left-angled, or low-profile right-angled). *Imported*. UL-listed in US and Canada.

IEC power cords are available in a variety of lengths.

Features:

- 14-gauge cord with tightly-twisted conductors to minimize signal disruptions from AC magnetic fields.
- Black cords are available in an assortment of lengths
- Three plug styles
 - Straight
 - Low-profile left-angled (90-degrees left with ground plug down)
 - Low-profile right-angled (90-degrees right with ground plug down)
- UL-listed in US and Canada
- Imported
