

Rackmount Panels with Hooded Lights

Description:

Model HDLT-R is a 19" EIA 1U rackmount panel with two hooded lights controlled by a dimmer switch. Hooded lights are night-vision friendly with red light changing to white as intensity increases. Panel has a single XLR connector in the rear for use with optional gooseneck light (order separately). The rugged steel chassis (19"W x 9"D x 1.75"H) has a smooth black powder epoxy finish. Includes power supply.

Model ACR-1507-HDLT has the same light features described above but also includes AC power (120VAC 60Hz 15A 1800W) with a total of seven outlets (one single outlet in front, three duplex outlets in rear). One rear duplex outlet is switched; all other outlets are unswitched (always on). Includes 9-ft. detachable cord with NEMA 5-15P plug.

Features:

- Rugged steel chassis (19"W x 9"D x 1.75"H)
- Smooth black powder epoxy finish
- Made in USA with domestic and foreign parts

Optional:

- Model GNLT-18 is a single gooseneck light with four LEDs. (Connects to rear XLR connector).

A & E Specifications:

The 1U rackmount panel shall be Lowell Model _____. It shall include two hooded lights controlled by a dimmer switch. Hooded lights shall be night-vision friendly with red lights changing to white as intensity increases. The 19" EIA rackmount panel shall also have one XLR connection in the rear. Unit shall feature a black powder epoxy finish and include a power supply.

[The panel shall have a power rating of 120VAC, 60Hz 15A 1800W and a total of seven outlets (one in front, six in rear). It shall include a detachable power cord with NEMA 5-15P plug.]
