

Create custom labels to identify connections with the PocketID™ system.

Directions...

- 1). Verify this template matches your rack panel model number.
- 2). Type information into each position as shown in the sample (choose the black text on white background or reverse-color option).
- 3). Cut along the dotted lines to create (2) paper strips.
- 4). Carefully pull top edge of PocketID window away from panel and insert label strips into position (overlap strips to fit).

Use finger or small tool to gently pull top edge of window away from panel. Insert label strips into position (overlap strips to fit).
