

Create custom labels to identify connections with the PocketID™ system.

### Directions...

- 1). Verify this template matches your rack panel model number.
- 2). Type information into each position as shown in the sample (choose the black text on white background or reverse-color option).
- 3). Cut along the dotted lines to create (3) paper strips.
- 4). Carefully pull top edge of PocketID windows from panel

Use finger or small tool to gently pull top edge of each window away from panel while inserting label into position.
